

BENEFITS OF LEASING

Leasing Protects Cash Flow

With leasing, you can spread out the acquisition cost of your equipment over time, freeing up valuable capital to expand the business.

100% Financing

When you borrow money from a bank to acquire equipment, you may be asked to provide a down payment of 10 to 20%. In most cases with leasing, your first payment is all that is required at the time of signing. You can finance the total solution, including start up costs, hardware, software & services.

Protection Against Obsolescence

With Leasing, you can upgrade your equipment at anytime without a penalty. This keeps you up to date with today's most current technology.

Tax Advantages

Depending on the circumstance, lease payments may be 100% tax deductible as an operating expense. Consult your accountant regarding the nature of deductions for your situation.

Simplify Budgeting

Because regular lease payments remain fixed over the term of the lease, budgeting cash flow requirements is made easy.

Leasing Preserves Existing Credit Lines

With lease financing, you are able to get the equipment you need today without tying up other valuable credit lines.

Leasing is Flexible

A variety of lease options are available, the term and frequency of payments can be tailored to fit your unique situation.
